Tier changes  
Effective Jan. 1, 2023

This is a list of biannual tier changes made to your formulary. Each medication is placed in a tier that shows the cost level you may pay for that prescription. Your employer or health plan makes the decision on tier placements. Medications are grouped by the conditions they treat.

## Medication tiers

### Tier 1

Lower cost  
medications

### Tier 2

Mid-range cost  
medications

### Tier 3

Higher cost  
medications

In this formulary update, brand-name medications are shown in UPPERCASE (for example, CLOBEX). Generic medications are shown in lowercase (for example, clobetasol).
