

Patient Protection Notice

MVP Healthcare through Mountain Community Health generally requires the designation of a primary care provider. You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members. Until you make this designation, MVP Healthcare designates one for you. For information on how to select a primary care provider, and for a list of the participating primary care providers, contact MVP Healthcare at 800-825-5687.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from MVP Healthcare or from any other person (including a primary care provider) to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, contact the MVP Healthcare at 800-825-5687.
