Preventive Drug Benefit

PREMIUM FORMULARY

Your coverage includes a preventive drug benefit. This means that preventive drugs (medications to help prevent chronic conditions and illnesses) are covered outside of your plan's deductible. Instead, you will pay the applicable copayment or coinsurance amount.

Over-the-counter products are not included in this benefit.

This is a list of the most commonly prescribed preventive drugs. Limitations and restrictions may apply. Brand-name drugs have a capital letter; all others are generic drugs.
