- **What does a doctor need to do to be in the Cigna Vision network?**

Before joining the Cigna network of contracted doctors, health care professionals must meet Cigna standards through a process called credentialing. We regularly review doctors' credentials to ensure they continue to meet these standards.

- **Name of Network**

The Cigna Vision Network supports your routine vision coverage and is different from the network of your medical benefits.

- **Source of Information and Frequency of Validation**

The information provided is supplied by the individual healthcare professional, subject to regular audits, and based on our records as of the date of the search and/or printing of the directory.

- **Timely Access to Care**

Cigna is committed to providing you access to care on a timely basis. We follow these standards for access as established by the State of California. If you are not provided care within the following timeframes, please call the number on the back of your Cigna ID card and assistance will be provided to ensure you receive timely access to care.

- **Routine Vision Access Standards**

- Cigna's access standard is one doctor in a 10-mile radius urban/suburban and one doctor in a 25-mile radius for rural. Cigna utilizes reports to analyze and determine the percentage of members that will have access to a doctor within a specified distance. Cigna runs specific reports to determine if standards are being met and whether to apply appropriate interventions when gaps are identified.
- Routine (non-urgent) Appointments - within 30 calendar days
 - For Connecticut residents – within 15 calendar days
- Urgent Appointments - within 48 hours
