

Formulary Updates for the Advantage Formulary Effective July 1st, 2025

Dear Valued Client,

Please see the following lists of formulary updates that will apply to the Advantage Formulary effective July 1st, 2025. As competition among clinically similar products increases, our formulary strategy enables us to prefer safe, proven medication alternatives and lower costs without negatively impacting member choice or access.

Please note: Not all drugs listed may be covered under your prescription drug benefit. Certain drugs may have specific restrictions or special copay requirements depending on your plan. The formulary alternatives listed are examples of selected alternatives that are on the formulary. Other alternatives may be available. Members on medications that will no longer be covered may want to talk to their healthcare providers about other options.
